

ULTRA - LITE™
HIGH OUTPUT AUGER
LOW PRO™

- Aluminum Construction
- More Loads per Day
- Fuel Efficient
- Roll-Over Stability
- Aerodynamic

WALINGA®

GOOD THINGS COME IN THREE'S

NOW IN ONE LEGENDARY TRAILER

Combined for the
Ultimate in Performance

ULTRA-LITE™ ALUMINUM CONSTRUCTION	+ HIGH OUTPUT AUGER DISCHARGE (HOAG)	+ LOW PRO™ CONFIGURATION
100% extruded frame	Size does matter	Lowered center of gravity by 16"
Better fuel efficiency	Better performance	Less wind drag
Strength where strength is needed	Quicker transfers	Better fuel economy
Extrusions eliminate cracking	More loads per day	More stable on the road
One piece Trucklite™ spliceless electrical harness	Thickest and heaviest shafts and bearings in the industry	Does not compromise ground clearance, multi axle configuration still available
		Coupled with high output auger = better performance/lower cost of operation
		More loads per day
		More consistent bin configurations = no loss in cubic capacity

Ultra-Lite™
High Output
Auger Discharge
